*The perfect boat for day charter, because of its spacious deck, that offers all guests on board the possibility to enjoy the sun at the same time.*

This boat was designed and built in Italy. This explains why the lines are amazing and all details have been well considered. The boat has two hydraulic side doors that offer even more deck space once the boat is anchored. Sunscreens can be installed both on the fore- and aft deck. The boat is powered by 2 X 800 HP MAN engines that can produce a top speed of 38 knots. The Alpine sounds system enables guests to have a little party on board after lunch.

The boat has two cabins; one double and one single. It has an inside bathroom with shower and a fridge to chill the drinks. The Sea Bob on the aft deck offers the possibility to explore the seas. Both tables on the fore deck can be turned into sun beds, creating a big lounge area.
